

## Brighter, warmer, more illuminating The new LED spotlights with pleasant daylight white or warm white light

They turn night into day and reliably illuminate gateways, terraces and paths at every turn: The theLeda S LED spotlights with integrated motion detector. The successful spotlight series is available in 4000 K (daylight white) or also with comfortable warm white LEDs. The colour temperature of about 3000 Kelvin is warmer, which many people find more pleasant.

The high light output of the 10 W LED spotlights corresponds to about 140 W of a traditional halogen lamp. Also with regard to energy-saving, LUXA spotlights are ahead of the pack: With just 0.4 W of standby power consumption, the detector works extremely efficiently.

### Why theLeda S from Theben?

- Pleasant warm white or daylight white light
- High-tech Matrix LED with high light output
- Orientation light with configurable dimming level
- Manual control (short-term and extended function) possible
- Long LED service life (L80/B10 50,000h)
- Low energy consumption
- Compact design

## Intelligent accessories Accessories for all applications

Spacer frames make installation easier in all situations which require more room for laying cables. They are also useful when inserting leads from the side, above or below. The corner bracket allows installation in inner or on outer corners.

## LED spotlight with motion detector theLeda S

## LED spotlights with theLeda S10 motion detector

- ! With just 10 W of LED output theLeda S delivers a powerful 840 lumens
- ! Very high light output, with low consumption at the same time (+95% more than LUXA LED), CRI 80
- ! Direct LED for maximum light output (High-tech Matrix LED module)
- ! Wall lighting possible by 180° rotation
- ! Orientation light with configurable dimming level
- ! Manual control (short-term and extended function) possible
  - Light colour: 3000K & 4000K
  - 180° detection angle at 10 m range
  - Creep under protection
  - Spotlight can be turned horizontally by +/- 40°, downwards by +70° and backwards by -45°

## LED spotlights with theLeda S20 motion detector

- ! 20 W of the LED correspond to approx. 1680 lumens
- ! Very high light output, with low consumption at the same time (+95% more than LUXA LED), CRI 80
- ! Direct LED for maximum light output (High-tech Matrix LED module)
- ! Orientation light with configurable dimming level
- ! Manual control (short-term and extended function) possible
  - Light colour: 3000K & 4000K
  - 180° detection angle at 10 m range
  - Creep under protection
  - Spotlight can be turned horizontally by +/- 45° (+45°/-21° without, +45°/-40° with spacer frame) and vertically by +70°
